TRAINING SHEET

RCC-F CODE (2020 & 2024 VERSIONS) : MODULE 4

Trainors: Johan PERDRIX - Xavier SAMTMANN

Description of the course :
The code brings together the design and construction rules concerning fire applied to all pressurized water reactors. The training aims to transcribe the main concepts covered.
The Module 4 focuses on qualification methods related to passive fire protection.

1. OBJECTIVES

- To have assimilated the requirements imposed or recommended by the code
- To understand the different methods of performance justification

2. TARGET AUDIENCE

- Project managers, engineers involved in an EPR project at any time and at any level of said project.
- Engineers from public services involved in an EPR project.
- People in charge of the design or construction of an ERP plant.
- Fire safety engineers or fire risk analysis engineers.

3. PROGRAM

- Principles, fire reaction performance criteria
- Principles, fire resistance performance criteria
- Test methods
- Combination of requirements
- Method of justifying the effectiveness of fire compartmentalization (EPRESSI method or ISO 18195)

4. PRE-REQUISITES

- Having completed the RCC-F module 1 training
- Bring the RCC-F Code 2024 version, which is not provided during this training.
- Access to the RCC-F Code can be provided by Efectis France upon request at a rate of €30 excluding VAT per trainee.

5. TEACHING METHODS

- Training support: For each training, a pdf version of the educational support will be sent before the session. The distribution of this support is the responsibility of the client.
- Evaluation of acquired knowledge via a questionnaire distributed at the end of the session.
- Training certificate issued at the end of the course.
- All our training courses can be organized in an in-company format with a tailor-made program. For people with disabilities, to better support you, please contact us at 03 87 51 37 35 before registration. We will review your training request with you and offer solutions to help you achieve your goals under the best conditions.

6. TRAINING TERMS

Duration	1 day
Sessions	Face to face sessions
Price tax excluded (documents, pauses and lunch included)	800 €uros The price will be 3000€ for a subscription to the 4 modules
